

dojoone™

Superfast countertop payments.

Built to last longer, print faster and serve better.

When it comes to running a business, we know it pays to have speedy service.

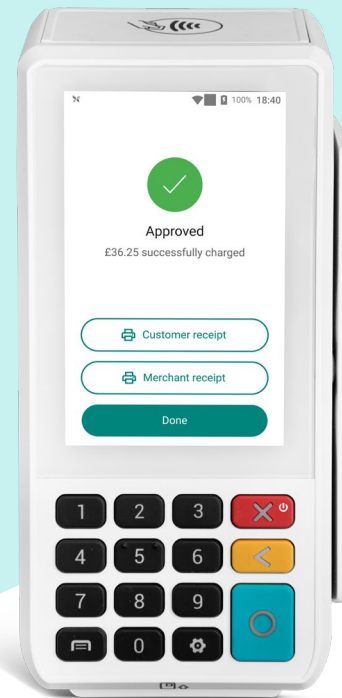

Dojo One is the card machine built to process transactions 80% faster than the industry average.

And with an integrated printer for quick receipts as well as a bulletproof ethernet connection, your customers can spend more time shopping, and less time waiting at the till.

Till payments at speed

Take payments seamlessly.

Blink and you'll miss it. With Dojo One you can take till-side card payments 80% faster than the industry average.

Stay connected, always.

Make your transactions bulletproof. With reliable ethernet connectivity and lightning speed, your customers will be in and out in minutes.

Print receipts instantly.

Keep up the pace. Dojo One comes with a built-in thermal printer for superfast receipts, so you can have shorter queues and easier returns.

Sync your payments.

Make human errors a thing of the past with seamless connectivity to all major EPOS systems. So you can serve faster and cash up quicker.
